Frontend Engineer with a passion for crafting clean, efficient code, and an enthusiasm for embracing new technologies. Highly communicative and easy-going, eager for continuous improvement.

Work Experience

Mid Frontend Engineer

Four Of Them LLC

Sep 2022 - Current

- Rebuilt the largest e-commerce platform for pharmacies in Germany from scratch, modernizing the technology stack and enhancing performance
- Built admin-side components from scratch, used to configure platform features mentioned above
- Maintained and implemented new features for a software development kit designed for standalone web components used in client integrations
- Performed continuous code reviews, focusing on knowledge sharing, maintaining code quality, and supporting team members

Junior Frontend Engineer

Three Of Them Ltd.

Dec 2021 - Sep 2022

- Maintained and implemented new features for the biggest e-commerce platform for pharmacies in Germany
- Worked on a Vaccine Reservation System, crucial during the COVID-19 pandemic
- Built a component library alongside Storybook for visual and functional testing and documentation
- Built an API library using TypeScript for use across projects

Skills

Vue | TypeScript | Nuxt | Tailwind CSS | SASS | Storybook | Express.js | MySQL
